ABOUT US

By Divine Grace, Sai Raj Ltd continues to serve the region as a pioneering fiberglass and PVC products manufacturer and fabricator with a team of highly trained professionals that are committed to providing quality products and a wide range of associated products and services.

For over 47 years, we have provided clients with bespoke innovations by maintaining a system that can integrate developments as they occur; these cost and quality advantages are passed onto our valued customers.

We are one of Kenya's leading fiberglass molders, commercial vehicle body manufacturers, and vehicle conversion specialists, offering the largest, most diverse range of products available in the market today. Our designers work with you during the development of each product to discuss the range of features available to you.

Our products include Fiberglass and Steel Truck Bodies, Pick-up Bodies, Vehicle Conversions and Specialty Fabrications, Fleet Conversions, 4x4 Accessories and Camping Gear, Ceramic Coating and Paint Protection products, uPVC Roofing Sheets, Polycarbonate sheets, PVC ceiling panels, Fiberglass tanks, Fiberglass furniture and many more quality Fiberglass Moldings as per client needs.

Our Vision

To make Sai Raj Ltd the first-choice manufacturer and reliable vendor of high-quality products, vehicle body work, accessories and preferred allied products.

Our Mission

To be trusted to deliver excellence with quality, service, flexibility and innovation at affordable prices.

Single Skin Truck Body Conversions - Built for Performance

When functionality and affordability matter, our Cargotuff single skin truck body conversions offer the perfect solution. Designed with a robust yet lightweight structure, these bodies are ideal for general transport and commercial use where insulation is not a primary requirement.

At Sai Raj, we engineer each conversion to meet the highest standards of strength, weather resistance, and longevity. Whether you're transporting goods across town or operating in rugged conditions, our single skin bodies provide the reliable performance your business depends on — all while keeping operating costs low.

Rigicore Truck Body Conversions for Demanding Applications

When your business demands durability, thermal efficiency, and structural integrity, Cargotuff Rigicore truck body conversions deliver. Built using advanced rigid core panel technology, these bodies offer superior insulation, enhanced impact resistance, and a sleek finish — making them ideal for refrigerated transport, pharmaceuticals, dry freight, and other temperature-sensitive or high-value cargo.

At Sai Raj, we custom-design each Rigicore body to match your exact operational needs. Our lightweight yet robust construction improves fuel efficiency without compromising on strength, helping you move more, waste less, and drive smarter.

Insulated Truck Body Conversions for Temperature-Sensitive Cargo

In today's fast-moving supply chains, maintaining product integrity is critical — especially when transporting perishable or temperature-sensitive goods. Our Cargotuff insulated truck body conversions are designed to deliver outstanding thermal performance, keeping your cargo fresh, safe, and compliant from pickup to delivery.

At Sai Raj, we use high-density insulation materials and precision-engineered construction to ensure consistent internal temperatures, reduce thermal loss, and improve energy efficiency. Whether you're in food distribution, pharmaceuticals, or cold chain logistics, our solutions are built to meet your industry's strict standards.

Ferrotuff Truck Body Conversions for Heavy-Duty Demands

When strength and durability are non-negotiable, Cargotuff Ferrotuff truck body conversions stand out as the ultimate solution. Designed for rugged performance and built with reinforced materials, these bodies are ideal for industries that require dependable transport in the most demanding conditions — from construction and mining to waste management and industrial logistics.

At Sai Raj, our Cargotuff Ferrotuff conversions combine heavy-duty steel frameworks with high-impact resistant panels to deliver unmatched structural integrity and longevity. Whether you're hauling machinery, tools, or bulky cargo, Ferrotuff bodies are built to take the load.

Refrigerated Truck Body Conversions for Cold Chain Excellence

When maintaining temperature control is mission-critical, our Cargotuff refrigerated truck body conversions provide the reliability and performance your business demands. Designed for sectors like food distribution, pharmaceuticals, floriculture, and medical supply transport, these conversions ensure your cargo stays fresh, safe, and compliant — from loading bay to final destination.

At Sai Raj, we build refrigerated bodies with high-performance insulation, advanced cooling systems, and durable finishes tailored to your operational needs. Whether you're transporting frozen, chilled, or temperature-sensitive goods, our custom solutions offer consistent temperature retention, fuel efficiency, and hygienic design.

Bottle Carrier Truck Body Conversions for Safe, Effficient Delivery

Designed specifically for the beverage and bottling industry, our Cargotuff bottle carrier truck body conversions combine strength, accessibility, and safety to streamline your delivery operations. With reinforced frames, modular shelving, and easy-access compartments, these bodies are engineered to handle the weight and volume of bottled goods — while minimizing loading time and breakage.

At Sai Raj, we customize each bottle carrier body to match your route requirements and cargo volumes. Whether you're distributing soft drinks, water, or glass-bottled products, our conversions offer the durability and organization you need for faster, safer deliveries.

Multiple Door Truck Body Conversions for Flexible, Efficient Loading

When speed, convenience, and organized access matter, our Cargotuff multiple door truck body conversions deliver. Designed for industries that require frequent stops and compartmentalized deliveries — such as logistics, retail distribution, parcel delivery, and beverages — these bodies improve workflow, reduce handling time, and enhance security.

At Sai Raj, we build each unit with strategically placed side and rear doors, customized compartments, and durable materials to suit your route and cargo needs. Whether you're delivering varied goods or working on tight urban schedules, our multiple door configurations provide the versatility your operations demand.
